Elections

In Connecticut the Whigs have been beaten on a mixed issue. The candidates of the loco party represented two interests, a political interest to the loco party, and a rule interest to the opposers of the Maine Law. The rule interest was allocated to whig political candidates while the political interests of the loco party held their temperance man.

In Rhode Island where was a similar combination of issues with Connecticut, the Whigs have triumphed in the election of a majority in both branches of the legislature.

Allen, the loco candidate for Governor is probably elected by a small majority, and Lawrence, for Lieut. Governor is defeated.

The *Texas Pioneer* of Senator James of Rhode Island, already referred to, proposes to remit the duties on railroad iron for three years, but to add ten per cent to the tax of duties on other iron, and after three years to add ten per cent on railroad iron also. To remit duties on certain raw materials, such as pre-stuff, etc. entering into domestic manufactures, and reduce duties on certain common fabrics, and to impose an additional duty of ten per cent on cotton, wool, &c. It was thought better to admit the railroad iron free for the present, on account of the contracts now out for the new roads.

The *Democratic Review* takes the ground that the right to do wrong is the essential condition of all true development, real happiness and healthful progress. It therefore opposes the Maine Law. Upon precisely the same platform—exactly the same issue the *Review* and the opposers of the Maine Law upon this ground should demand the repeal of all penalties denounced against theft, fraud, extortion, gambling, lottery vending, &c. Why should a single class of wrong doers come in for the benefit of these principles? The *Review* proves too much altogether too much in its opposition to the liquor law. If they will stand to their principles they can be and ought to be overthrown.

A San Francisco correspondent states that orders had been received from the Treasury Department, by Collector T. Butler King, to reduce the pay of all officers under his control, and display the numerous supernumeraries who were getting from \$5 to \$6 per day, and making their living by other means at the same time. No discretion was given to the Collector, and he was simply told that no explanations were desired in reply, but to curtail expenses of the office in every way.

Two letters from Mr. J. S. Sparks in reply to the charges against him, of making unjustifiable alterations in the manuscript of Washington submitted to his editorial use, have appeared in the *New York Evening Post*. The person, it seems, thus, can read these letters without a full conviction that the charges against him are without sufficient foundation, and must have originated in malice in some other base motive.
